FRIDAY, JUNE 18, 1869.

Our Southern Gold Mines.

Although not quite free from little reverses—what country is?—yet there is much at the present moment to encourage the public mind. The news from the southern gold fields is especially reassuring. It is no small matter to read in the press of our neighbors notices in praise of our mines. That press has, for the most part, been exceedingly reticent in regard to the resources of this Colony, and what little it has deigned to say has seldom been words of praise, or even of justice. We do not wish to be uncharitable; but we have not been able altogether to avoid the suspicion that our neighbors speak well of the southern mines simply for the reason that these mines are often more a source of profit to them than to ourselves. Their miners dig the gold; their merchants and packers supply the markets and pocket the profits. The entire traffic created by these mines flows through foreign channels. All that we do is to furnish the gold-bearing ground, and collect a slight tax upon imports. No wonder, then, that the people who reap at least three-fourths of the natural advantages accruing from the working of these mines should take an interest in them and speak well of them. But what is their advantage is our loss and disgrace. Nature obviously never designed that the gold fields of the southern portion of British Columbia should be worked and supplied by a foreign people. We have equally good navigation and facilities for the construction of roads, and we have abundance of good productive land all the way through. It only requires a little effort on the part of Government and people in order to secure to this Colony all, or nearly all, the advantages accruing from mines which bid fair to become the most important north of the 49th parallel. And we cannot help thinking the time has fully come, come long since when that effort should be put forth. The position of the Colony is by no means such as to enable us to afford to treat with indifference the trade of that section of country, a trade which, if properly husbanded would not, we apprehend, fall much short of that of the more northerly mines. The fact is, the policy in the past appears to have consisted too much in an indolent reliance upon the mines of Cariboo; and it has been found that we have to some extent been resting the very existence of commerce upon what has at times proved little better than a broken reed. Not that we have lost faith in Cariboo. Far from that. In its mineral wealth we have still the most abiding confidence. That the people have scarcely yet apprehended the dormant wealth of that region we believe. But the fact is, that with the present mode of working, the operations are every year liable to serious interruption from the two extremes of wet and drought. Thus, depending as we do, almost entirely upon a single gold field, the trade of the Colony is subject to periodical and severe reverses, produced alike by too much or too little water. Were the mining operations less confined, spread over a wider surface, so that the working of them would not absolutely hinge upon a shower of rain, or the absence of it, trade and commerce as well as every other industry would be more assured and healthy. We are no advocates for rash and ill-considered road making. There has, perhaps, already been too much of that in the Colony. Yet such an objection could hardly be urged against the establishment of facile communication with our Southern gold fields. It is now something more than five years since good diggings were discovered in that region. Nor has there ceased to be a considerable mining camp ever since. Confidence in the permanent productiveness of the original mining ground has been reassured; and when we add to that important recent discoveries, it is not

too much to say that these mines are entitled to share with Cariboo in public attention and legislative expenditure. Besides, the subject of communication with Kootenay is no new one. Year after year has it been urged upon the attention of the Government both by the Press and by commercial men; and year after year has it been the subject of legislative resolutionizing. If the best route for communication is not known to the Department to which such matters appertain the fact is scarcely creditable to that Department. If such information as would enable the Government to select the best route is not now in the possession of the Chief Commissioner, the sooner he obtains it the better will it be for his reputation as a public officer and for the prosperity of the Colony at large. We say, again, that no more time should be lost in this important matter. If, as it is asserted, Eagle Pass presents the greatest facilities for reaching that region, the Executive has long been in possession of legislative authority for taking advantage of that pass.

The New Governor.

Perhaps no more striking illustration of the revolution which has taken place in the mode of communication could well be adduced than that which occurred this week, in connection with the death of Governor Seymour. On Monday afternoon a telegram was sent off to London, announcing that said event. Before the same hour on Tuesday, a telegram was received here, from Lord Granville, announcing that Mr. Musgrave had been appointed Governor of British Columbia, and would sail immediately! Who is Mr. Musgrave? Mr. Anthony Musgrave is third son of Anthony Musgrave, Esq., M. D., Treasurer of Antigua, who rose to great eminence in his profession, and accumulated a large fortune in that Colony. The subject of the present article was born in 1828, in the Colony of Antigua. He was Private Secretary to Mr. Macintosh when Governor-in-chief of the Leeward Islands, in 1850; entered as student at the Inner Temple, in 1851; was appointed Treasurer of Antigua in 1852; resumed his legal studies at the Temple in 1853; was appointed Colonial Secretary of Antigua in 1854, during which year he married Christiana Elizabeth, youngest daughter of the Hon. Sir William Byam, of Cedar Hill, Antigua. Mrs. Musgrave died in 1859. In 1860 Mr. Musgrave was appointed administrator of the Colony of Nevis; in 1861, administrator of the government of St. Vincent; in 1862, Lieutenant-Governor of St. Vincent, and in April 1864, he was appointed Governor of the Colony of Newfoundland, which last named appointment he continued to fill till quite recently. Mr. Musgrave is a liberal in politics, has, as will be seen from the above, the advantage of much Colonial experience, and enjoys the reputation of being very energetic and possessed of more than ordinary administrative ability. He is a strong and consistent advocate of the great scheme of Confederation, and had for several years been educating the Newfoundlanders upon that subject, having succeeded before leaving that Island in preparing the way for its admission into the Dominion. It will be remembered that we published, on the 13th of April, an extract from the speech with which he opened the Legislature of that Province, on the 23rd February last, in which he presented the subject of union with Canada as the great question of the Session, and in which he said, "I do not understate the magnitude of the interests involved; but I have never concealed from you my dispassionate considerations of the proposal that induces me strongly to believe that those interests will be promoted by union with the progressive communities which now form the Dominion." A word regarding the apparently extraordinary celerity with which the successor of our late lamented Governor has been appointed. Some months ago the late Governor intimated that he proposed shortly applying for sick leave, so that the Colonial Minister might be prepared; and it was known to His Excellency before his death that Mr. Musgrave was to be his successor. In fact, he was in correspondence with that gentleman, in reference to matters connected with the contemplated change. Mr. Musgrave was in London on leave, and the telegram announcing the death of Governor Seymour resulted in his instant appointment.

AUSTRALIAN HOTEL.—W. C. S. Seeley, James Bay Bridge. Accommodations for Ladies, Gentlemen and Families. Furnished Rooms and Board at the most Reasonable Terms. Wines and Spirits of the best quality served at the bar, or rooms. Sea-water Baths are attached to the Hotel. Pleasure Boats on hand.

New Westminster Mourners.

Probably in no part of British Columbia will the death of His Excellency Governor Seymour have been more deeply mourned than at New Westminster. Coming there at first; returning there with his bride, and residing there during the greater part of his career in this Colony, the people of New Westminster enjoyed opportunities for becoming acquainted with His Excellency, and forming a just estimate of his private and public qualities denied to other communities. The result of all this was that a feeling sprang up in the heart of the people which it is not too much to describe as one of strong personal attachment. So intimately was His Excellency identified with every enterprise, whether philanthropic, moral, or public improvement, that his removal to Victoria created a blank only exceeded by his removal from time to time. Upon the receipt of the sad intelligence of his death New Westminster was bowed in profound sorrow. The Municipal Council met and adopted an Address of condolence to the widow; the Fire Department did likewise, the latter body draping their Hall in mourning. On Wednesday, the day of the funeral, business was suspended, and the bells of the Churches, as well as that of the Haystack Company, were tolled. The following addresses above alluded, were presented at Government House yesterday by the Hon. H. Holbrook and W. J. Armstrong, Esq.—

NEW WESTMINSTER, June 15th 1869.
Mrs. SEYMOUR.—Madame.—We the undersigned members of the Municipal Council of New Westminster have heard with deep regret and heartfelt sorrow of the loss that you have sustained by the death of your esteemed husband.
His Excellency's death cannot but be felt as a serious loss to the whole Colony, but to none more than to this community, amongst whom he had resided for so long a period, and who had so many opportunities of appreciating his private as well as his public character.
We trust that God in His mercy will enable you to bear the burden of sorrow with which it has pleased Him to afflict you; and with the expression of our sincerest sympathy.

We remain, Madame,
Your obedient servants,
H. HOLBROOK, President.
W. J. Armstrong, Geo. C. Clarkson, J. Cunningham, Thos. E. Langer, David Withrow, H. McRoberts, H. W. Smith, Christopher Lee, Wm. Irving, L. Bonson.

ADDRESS OF THE FIRE DEPARTMENT.
NEW WESTMINSTER, June 15th 1869.
Mrs. SEYMOUR.—Madame.—We, the undersigned Officers of the Fire Department of New Westminster, on behalf of all the members, do respectfully offer our sincere condolence for the great loss you have sustained, in the sudden death of your beloved husband, His Excellency Governor Seymour.
In the death of His Excellency, the Fire Company of this city have lost a warm and attached friend; for all had learned to appreciate his private as well as his public worth; but our loss is nothing in comparison to yours. We pray that God, in His infinite mercy, may give you strength to bear this great sorrow, with which you are afflicted.

We have the honor to be,
Madame,
Yours most respectfully,
Wm. Johnston, Chief Engineer & Acting Captain,
David Withrow, Assistant Engineer,
Geo. C. Clarkson, 1st Lieutenant,
Thos. Walsh, 2nd Lieutenant,
John S. Clute, Treasurer,
H. Burr, Secretary.

Funeral of Mr. Lascelles.

The funeral of Commander, the Honourable Horace Douglas Lascelles took place at Esquimalt, yesterday, at 3 p.m. The body lay in the Naval Hospital, in the same ward which contained the remains of the late Governor, the previous day, and the funeral was attended with the same military honors, with the exception of the minute guns, to which, dying on the half-pay list, deceased was not entitled. The pall bearers were Capt. Mist, R. N. of H.M.S. Sparrowhawk, Lieut. Larum, R. N., Commander of H. M. gunboat Forward, Lieut. Osborne, R. N., of H. M. S. Satellite, the Hon. J. S. Helmcken, the Hon. D. B. Ring, and P. Wakeman, Esq. The chief mourners were J. J. Southgate, Esq., J. Trimble, Esq., Mayor, and Dr. Comrie, R. N., of H. M. S. Sparrowhawk.

The procession was composed of Naval Officers, Bluejackets, Marines, and a very large number of civilians, friends of the deceased. The services were performed by the Rev. Mr. Sutridge, Chaplain of H.M.S. Satellite, assisted by the Rev. F. Gribbell. The attendance was very large, and the most admirable order marked the proceedings throughout. All the Naval Officers in the port were in attendance, including the Senior Officer on the station, Captain Edge, of H.M.S. Satellite, under whose most able and vigilant superintendence the entire arrangements were made and carried out, reflecting, as they certainly did, the greatest credit upon the Service. Indeed, we have seldom witnessed a more orderly or imposing ceremony.

DIRECTIONS FOR USING KANE'S IMPERIAL CONDENSED SOAP.—1st. For an ordinary washing (from three to four dozen pieces) dissolve one-eighth pound of soap in sufficient boiling water to cover well your white clothes. Pour it over the clothes and let them soak thirty minutes, stirring them occasionally. If the water is hard use a little more soap.
2nd. When soaked, wring them out, rub a little soap upon the soiled parts, and put them into the boiler with sufficient water to boil them, having first dissolved one-eighth pound of soap in the water, and boil them ten or fifteen minutes, then scrub them well in warm water and rinse in cold water, blue and hang out to dry.
3rd. Should there be any articles not thoroughly cleansed, rub the soiled places with a little soap, and replace them in the boiler and boil a few minutes longer.
4th. For colored or woollen clothes use the same as common soap.

THE AMERICAN Submerged Pump.

FIRE, SHIP, HOUSE, FARM, FACTORY,
Distillery & Irrigating Purposes

THIS VALUABLE PUMP IS BEING MANUFACTURED and sold by the Pacific Pump Manufacturing Company, San Francisco, California, and they place before the public, confident that it will supersede all designed. It is a
Double-Acting, Non-Freezing Force Pump,
adapted to Deep Wells, and almost every use to which a Pump can be applied. No pump has been spared to test its various qualities, having been subjected to the closest and most severe trials before Civil and Mining Engineers, Insurance Companies and the U. S. Life-Saving Commission of 1867. In the report of which it is the only Hand Pump mentioned, notwithstanding many others were submitted for examination. From all and every source it receives the highest encomiums of praise. It has been the aim of the Company to construct it on scientific principles; and it is claimed that no other Pump of the same capacity will do its work with greater ease and freedom than the American Submerged Pump.

A SAMPLE PUMP is now set up on our Wharf, and the Public are invited to inspect its working.
